

PARTNERSHIP AGREEMENT

2022/2023

Politechnika
Wroclawska

About us

PWR Racing Team consists of over 60 students from different universities stationed at Wrocław. Since 2009, every year we construct car, with which we are starting in international Formula Student competitions. Up to this time, we've constructed 11 cars with internal combustion engines, and last year we built the first in our team's history electrical vehicle with an autonomous driving system.

With your help, we would like to build our 13th vehicle- RT13e.

PWR Racing Team educates young engineers and managers and helps them begin their journey with motorsport. Our members find employment in top automotive companies - Scuderia Ferrari, Bentley, Škoda Motorsport, and Scuderia Alpha Tauri.

RT12E

WEIGHT

250 kg

ACCELERATION 0-100 km/h

4 SECONDS

1

FIRST

ELECTRIC CAR WITH AUTONOMOUS DRIVING SYSTEMS

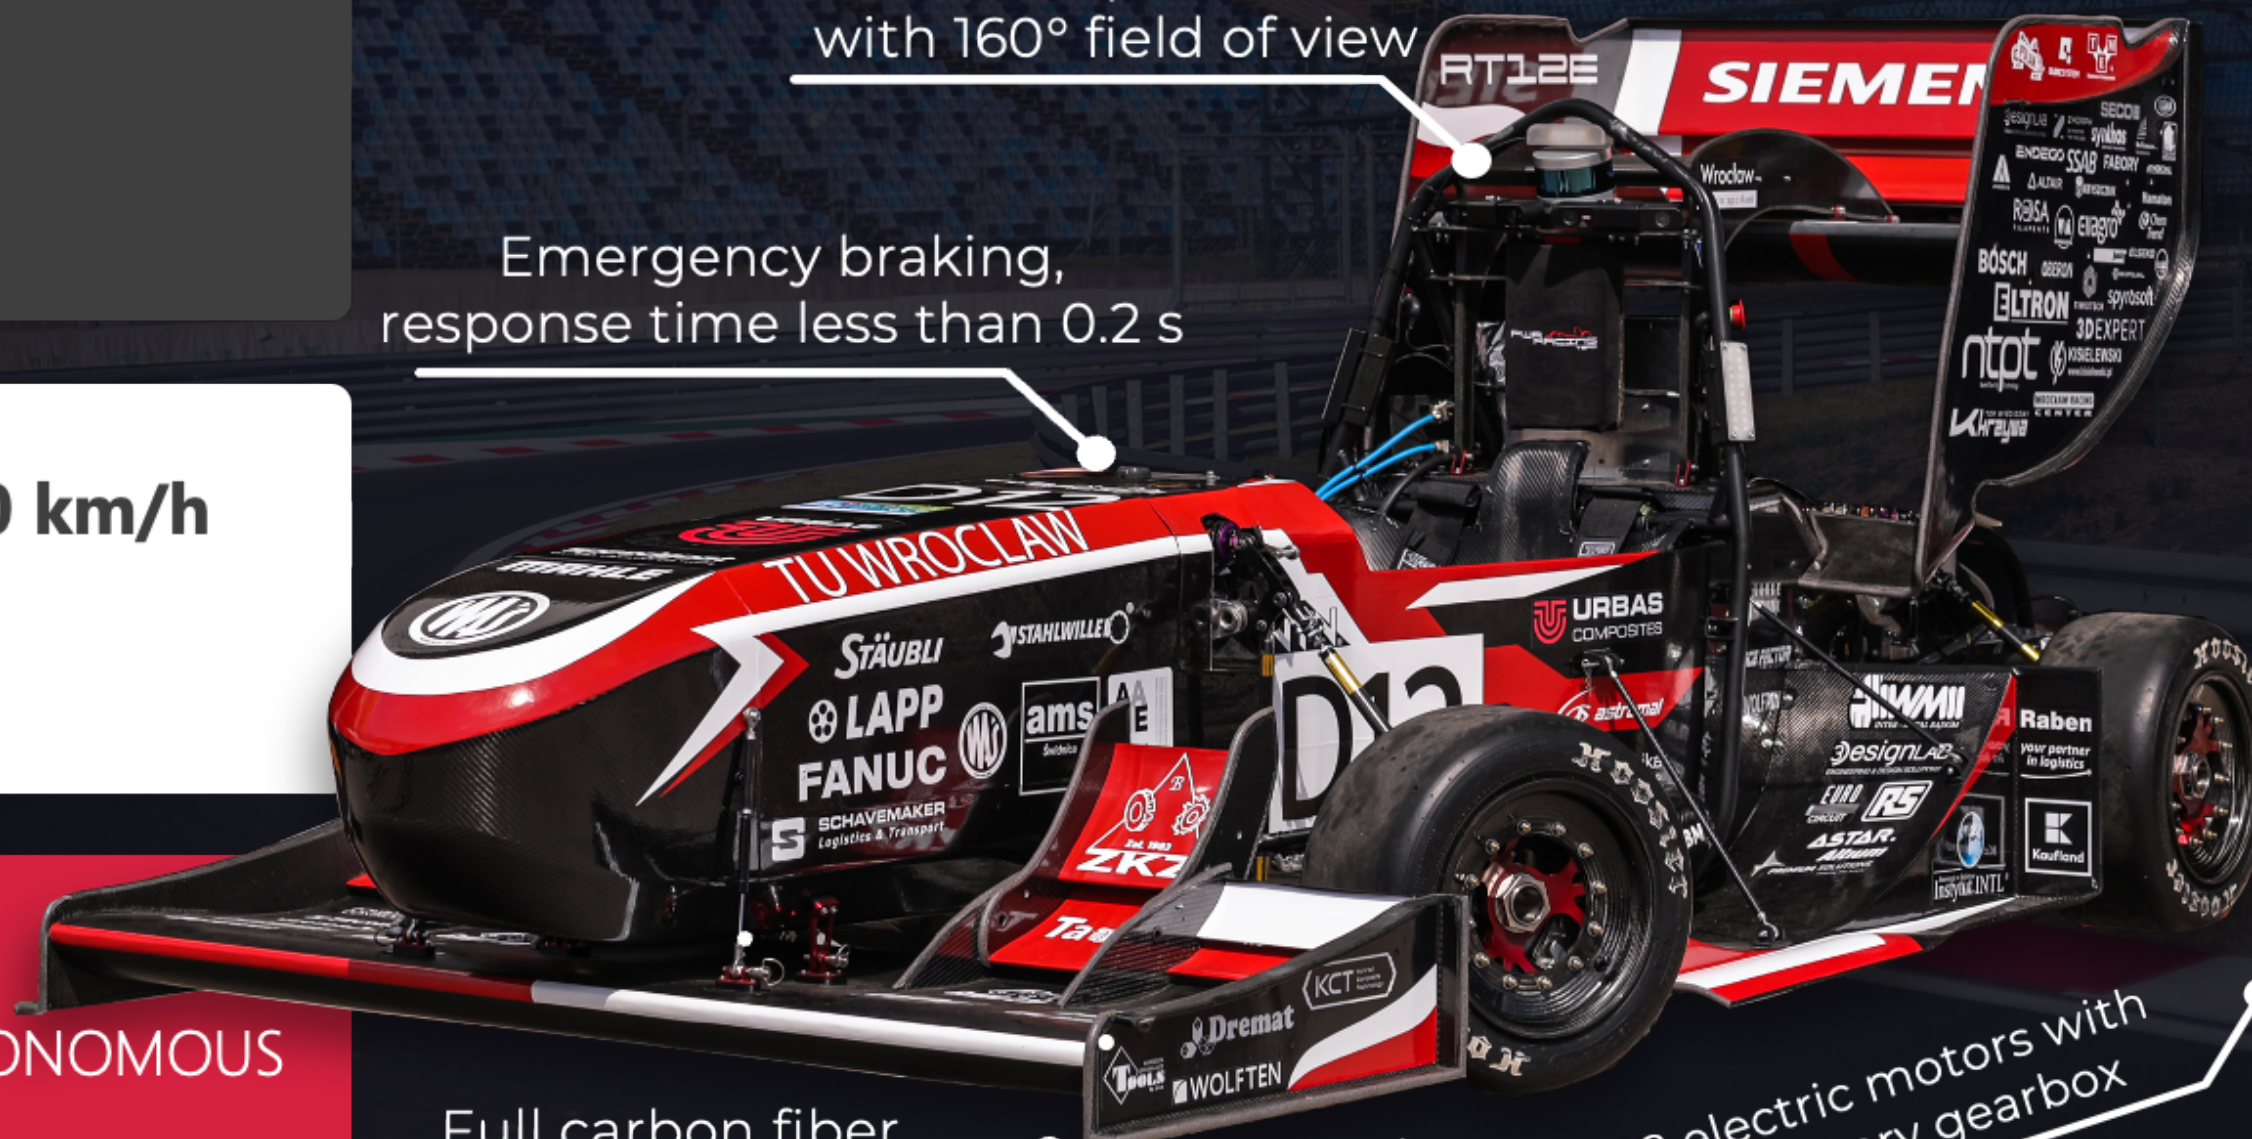

2 stereoscopic cameras with 160° field of view

Emergency braking, response time less than 0.2 s

Full carbon fiber monocoque

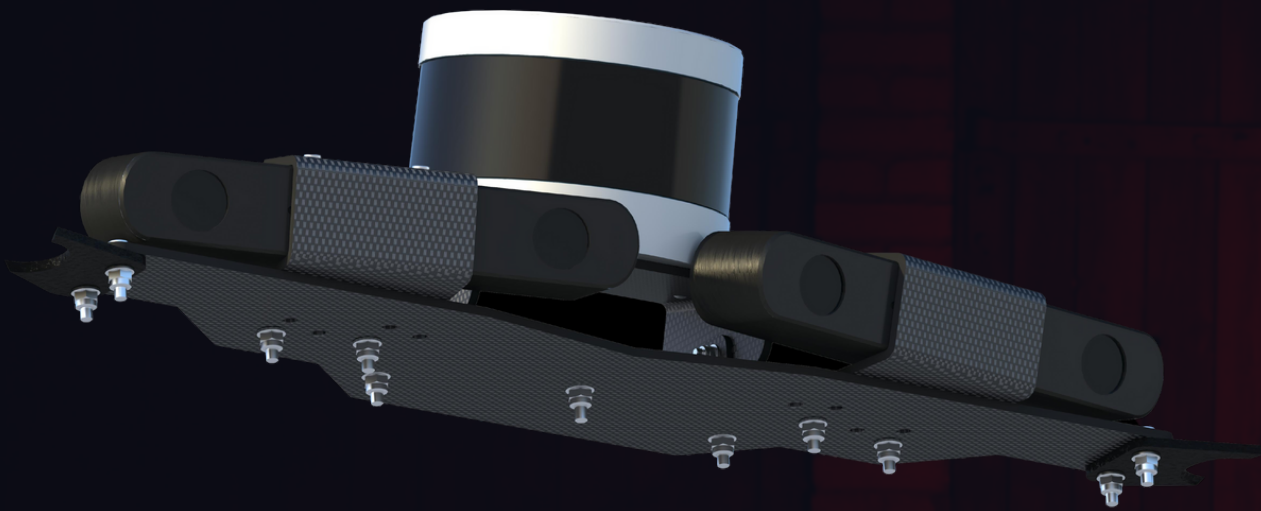

Author's project of over 90% of the elements

2 electric motors with planetary gearbox

Innovation

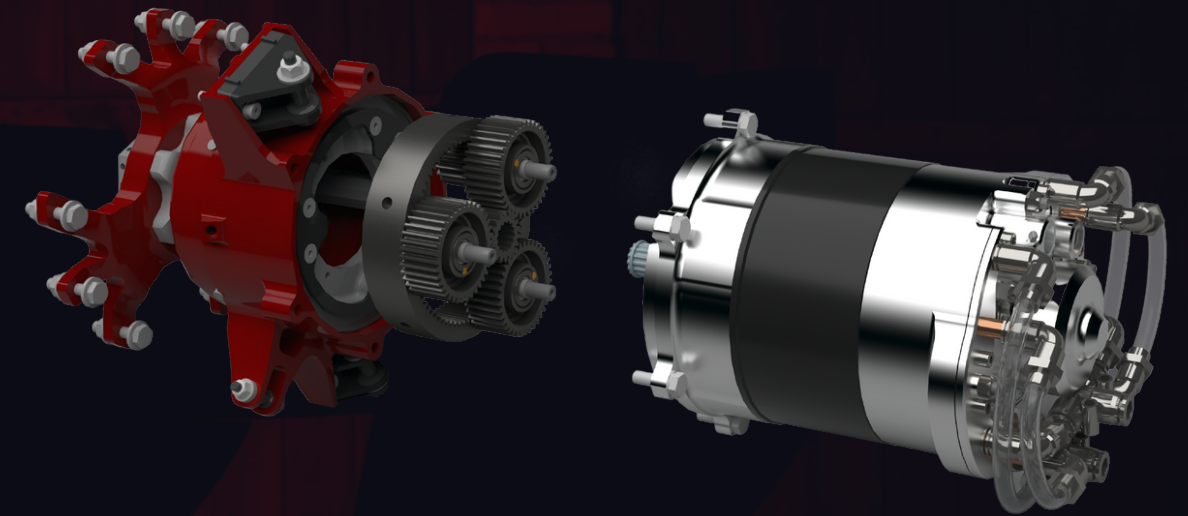

RT12E

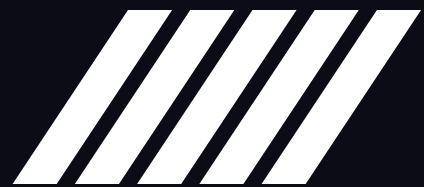

Autonomous driving system based on 2 stereoscopic cameras and a LiDAR sensor

The lightest wiring harness in the class that meets high motorsport standards

Two self-designed 8-pole electric motors with a power of 47 kW each

Events

Motorsport events:

- Poznań Motor Show
- Ultrace
- Warsaw Motor Show
- Śniadanie & Gablota
- WOŚP with Apex One
- Academic League Apex One

Premiere of the RT12e

Sponsor Event

Trade fairs and conferences:

- Kompozyt-EXPO
- Formula Student Symposium
- International Eko Fleet Fairs
- Academic Job Fairs
- Made in Wrocław

We present our car not only during many fairs and motorsport events but also organize our own events like the Premiere of the RT12e and Sponsor Event.

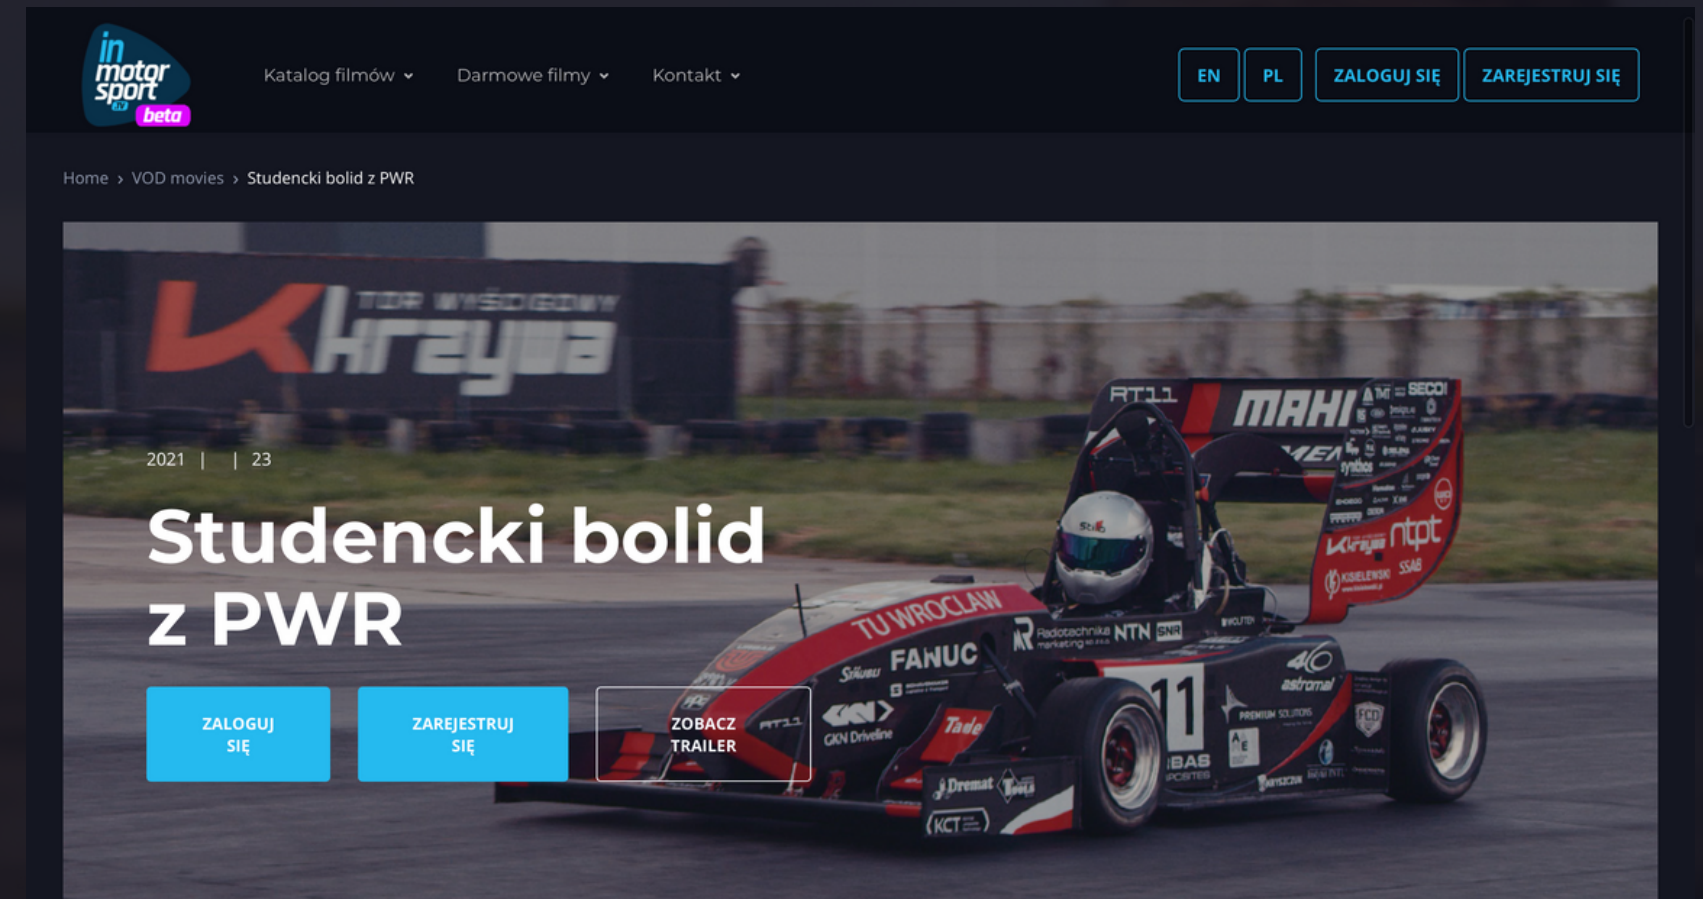

Mediality

PWR Racing Team is regularly present in local and national media. Our posts reach up to **40 thousand people** monthly.

Our Team even appeared in a series with a dedicated episode.
